Multidatabase recoverability and recovery

Georgakopoulos, D.
Dept. of Comput. Sci., Houston Univ., TX;

Abstract
To support global transactions in a multidatabase environment, one must coordinate the a database management systems, that were designed for independent, stand-alone operatio and heterogeneity of these systems present a major impediment to the direct adaptation o management mechanisms developed for distributed database systems. This paper addres multidatabase recovery. Most solutions proposed to provide multidatabase recovery are e results or place severe restrictions on global and local transactions. To assure that multida preserves the consistency of a multidatabase system. The author introduces a multidataba requirement. He also describes a recovery mechanism that takes advantage of the local re participating database systems by minimizing the replication of recovery tasks

Index Terms
Inspec
   Controlled Indexing
   distributed databases   system recovery   transaction processing

   Non-controlled Indexing
   autonomy   consistency   distributed database systems   global transactions   hete local transactions   multidatabase recoverability   multidatabase recovery   multiple management systems   task replication minimization   transaction management m

Patents

Two-phase cryptographic key recovery system
US Pat. 5937066 - Filed Oct 2, 1996 - International Business Machines Corporation
In the Fischer scheme, the user has a secret **password** which is escrowed. ...
credentials to the key **recovery** agent together with the appropriate **hash** value. ...

Secure·management of keys using extended control vectors
US Pat. 4924515 - Filed Aug 24, 1989 - International Business Machines Coprporation
The N-bit **hash** the clear form of the **password** as an additional parame- value js
... producing 35 an N-bit **hash** value. The **recovery** of the key can go Finer ...

Automatic backup/**recovery** process
US Pat. 6728711 - Filed May 2, 2001 - Hewlett-Packard Development Company, L.P.
... professional for ensuring the completing of the **recovery** process. ... a **hash**
file (**hash**.dat) containing a **hash** function of a user and a **password**; ...

Automatic **recovery** of forgotten passwords
US Pat. 6360322 - Filed Sep 28, 1998 - Symantec Corporation
One **hash** algorithm, MD5, or message digest 5, is generally known in the art, and
is suitable for hashing a user **password**. Other algorithms are also ...

Secure data downloading, **recovery** and upgrading
US Pat. 6341373 - Filed Dec 1, 2000 - Liberate Technologies
Each **hash** in the table should correspond to an image of the most recent segment of
... Each **hash** in the manifest is accompanied by a location identifier, ...

Secure data downloading, **recovery** and upgrading
US Pat. 6381741 - Filed May 18, 1998 - Liberate Technologies
This is a validity check to determine whether the writeable memory 16 which
contains information like the local ISP phone number and client-id/**password** as ...

Method and system for securely archiving core data secrets
US Pat. 6044155 - Filed Dec 23, 1997 - Microsoft Corporation
Rather, subsequent **recovery** of the client key requires help from the ... K,nast
and a first random key K.R1, using a predetermined 65 one-way **hash** function. ...

System for supporting secured log-in of multiple users into a plurality of ...
US Pat. 6081893 - Filed May 28, 1997 - Symantec Corporation
The plaintext version (PW) of the user-submitted **password** 101 is applied to a
hash function module and thereafter preferably scorched from line 101 (erased ...

Methods and apparatus for recovering keys
US Pat. 6160891 - Filed Oct 20, 1997 - Sun Microsystems, Inc.

In one embodiment, a new key **recovery** file is produced as described herein using the present invention when the key **password** is assigned or updated. ...

Multiple remote data access security mechanism for multitiered internet ...
US Pat. 6052785 - Filed Nov 21, 1997 - International Business Machines Corporation
4 and 5 which illustrate the flow of create a **hash** table entry 520 and are associated
... Inc. The Distrib- attempt to locate a User ID and **password** in the ...

Method and apparatus for encoding keys
US Pat. 6549626 - Filed Oct 20, 1997 - Sun Microsystems, Inc.
In one embodiment, a new key **recovery** file is produced as described herein using the present invention when the key **password** is assigned or updated. ...

Cryptographic protection of core data secrets
US Pat. 6389535 - Filed Oct 13, 1998 - Microsoft Corporation
Generally, each user has a user identification and associated **password** that ...
and a first random key K.R1, using a predetermined one-way **hash** function. ...

System for supporting secured log-in of multiple users into a plurality of ...
US Pat. 6408389 - Filed Dec 5, 2000 - Symantec Corporation
The plaintext version (PW) of the user-submitted **password** 101 is applied to a
hash function module 130 and thereafter preferably scorched from line 101 ...

Secure data storage and retrieval with key management and user authentication
US Pat. 6947556 - Filed Aug 21, 2000 - International Business Machines Corporation
A en special protocol is used to validate a userid and **password** • , , • , .
... The personal key client encrypts ke, and, optionally, ki and a **hash** of ke, ...

Auto-escrowable and auto-certifiable cryptosystems
US Pat. 6202150 - Filed May 28, 1997
An example of a file could be a **password**, in which case, the file **recovery** agents
are **password recovery** agents. Thus, there has been described a new and ...

Cryptographic co-processor
US Pat. 6704871 - Filed Sep 16, 1998 - SafeNet, Inc.
An HMAC key type may be used to store the secret output of a **hash** result—perhaps
... secret key by hashing an application-supplied **Password** or Passphrase. ...

Server-assisted regeneration of a strong secret from a weak secret
US Pat. 6829356 - Filed May 17, 2000 - VeriSign, Inc.
If both of these are verified, then the counter of unverified **recovery** attempts
for user account U and **password** PWD are decremented. Otherwise, the **recovery** ...

System for supporting secured log-in of multiple users into a plurality of ...
US Pat. 6339828 - Filed May 3, 2000 - Symantec Corporation
The plaintext version (PW) of the user-submitted **password** 101 is applied to a
hash function module and thereafter preferably scorched from line 101 (erased ...

Secure data storage and retrieval in a client-server environment
US Pat. 7010689 - Filed Aug 21, 2000 - International Business Machines Corporation
When the "file **recovery** by a trusted third party" option is selected (block 510),
the client encrypts ke, and optionally, ki and a **hash** of ke, ki with pk, ...

Secure transmission system
US Pat. 6760752 - Filed Jun 28, 1999 - Zix Corporation
Signature manager 132 can be used to ' key locally. Key escrow and key **recovery**
are discussed in 5) a **hash** of the public key of the sender and its status; ...

Cryptographic key, or other secret material, **recovery**
US Pat. 6754349 - Filed Jun 1, 2000 - Fujitsu Services Limited
In more general terms, the invention provides a **recovery** process whereby key or
other secret material, loaded under **password** protection onto a removable ...

Method of authentication and storage of private keys in a public key ...
US Pat. 6370250 - Filed Oct 29, 1998 - International Business Machines Corporation
To change the **password** to a known value, knowledge of the current **password** ...
computing a hashed value of the **password** utilizing a one-way **hash** function; ...

Method and apparatus for a robust high-speed cryptosystem
US Pat. 6154541 - Filed Sep 30, 1997
20 **Hash Hash** is some kind of scrambling (function) that may not be invertible.
... Operational **Password** Length The minimum length of passwords that a ...

Machine dependent login for on-line value-bearing item system
US Pat. 7251632 - Filed Oct 18, 2000 - Stamps. com
The **hash** of the passphrase is transmitted securely 5 to the PSD and stored
encrypted within ... The following describe a process for user **password recovery**. ...

Method and apparatus for digitally signing an advertisement area next to a ...
US Pat. 7240037 - Filed Oct 18, 2000 - Stamps.com
The **hash** of the passphrase is transmitted securely to the PSD and stored encrypted
within ... The following describe a process for user **password recovery**. ...

Apparatus and method for implementing IPSEC transforms within an integrated ...
US Pat. 6708273 - Filed Feb 25, 1999 - SafeNet, Inc.
An HMAC key type may be used to store the secret output of a **hash** result—perhaps
... secret key by hashing an application- supplied **Password** or Passphrase. ...

Method and apparatus for binding electronic impressions made by digital ...
US Pat. 6401206 - Filed Mar 5, 1998 - Skylight Software, Inc.
This **hash** is fully recoverable by any authority which has access to the static
private ... from the user name, pin number and **password** in this embodiment. ...

System and method for reallocating and/or upgrading and/or rewarding tickets ...
US Pat. 7031945 - Filed Jul 24, 2001
To succeed, an attacker must find a useful **hash** collision—a computationally
daunting task. ... (If the attacker were in possession of the victim's **password**, ...

Software rental system and method for renting software
US Pat. 6334118 - Filed Mar 23, 1998 - Siemens Aktiengesellschaft
Perhaps the most significant issue is **recovery** from accidental loss of the audit
... vendor **password**, ie **password** that unlocks the vendor company's private ...

Computer security method and apparatus
US Pat. 6986050 - Filed Oct 12, 2001 - F-Secure OYJ

The **password** is stored securely in the RAM 6, encrypted using the passphrase ...
checksum of the passphrase or the cryptographic keys with a **hash** function, ...

Patents

Patents **1 - 20** on **one-time password**. **(0.12** seconds)

Sort by relevance | Sort by date (new first) | Sort by date (old first)

Authentication system using one-time passwords
US Pat. 5592553 - Filed Feb 8, 1996 - International Business Machines Corporation
In the system described in the copending application, for example, a **one-time**
password is generated by a requesting product or function (or by the host ...

Authentication system using one-time passwords
US Pat. 5661807 - Filed Aug 18, 1995 - International Business Machines Corporation
Character Translation For **one-time password** generation, the result of step 512,
... For example, a remainder of 0 translates to a **one-time password** ...

Method for providing a secure non-reusable one-time password
US Pat. 5768373 - Filed May 6, 1996 - Symantec Corporation
1 2 METHOD FOR PROVIDING A SECURE significantly compromising data security and
without having NON-REUSABLE **ONE-TIME PASSWORD** to attempt to decrypt encrypted ...

Method and apparatus for secure remote authentication in a public network
US Pat. 5604803 - Filed Jun 3, 1994 - Sun Microsystems, Inc.
The method as defined by claim 1 wherein said first computer provides a second
request to said second computer to obtain said encrypted **one time password**, ...

Method and apparatus for secure remote authentication in a public network
US Pat. 5732137 - Filed Jan 3, 1997 - Sun Microsystems, Inc.
The method as in claim 1 wherein if said decrypted **one time password** is not
received within a predetermined time t from said remote user, said stored **one** ...

Authentication system using authentication information valid one-time
US Pat. 6148404 - Filed May 27, 1998 - Nihon Unisys, Ltd.
(1) **One-time Password** Scheme Authentication is to verify whether or not an entity
55 The **one-time password** scheme is proposed by Bellcore (human being, ...

User authentication system for authenticating an authorized user of an IC card
US Pat. 6067621 - Filed Oct 6, 1997 - SamSung Electronics Co., Ltd.
The method of claim 16, wherein said **one-time password** is received for verification
by the steps of extracting the counter value from the received **one-time** ...

Method for authenticating a user working in a distributed environment in the ...
US Pat. 5841871 - Filed Nov 18, 1996 - Bull S.A.
The method for authenticating a user working in a 35 distributed environment in
a client/server mode of claim 1, wherein when said **one-time password** system ...

Method and system for accessing electronic resources via machine-readable ...
US Pat. 6434561 - Filed May 9, 1998 - Neomedia Technologies, Inc.

Three popular **one-time password** mechanisms are Bellcore's S/KEY, ... :5 The idea behind Bellcore's S/KEY **one-time password** system was first conceived by ...

Methods for pre-authentication of users using **one-time** passwords
US Pat. 6983381 - Filed Jun 28, 2001 - Arcot Systems, Inc.
Thus, in this embodiment, the **one-time password** need not be digitally signed as
... Thus although 5 the **one-time password** and the authorization data may be ...

One-time logon means and methods for distributed computing systems
US Pat. 5241594 - Filed Jun 2, 1992 - Hughes Aircraft Company
However, this system re- ONE-TIME LOGON MEANS AND METHODS FOR quires a host ...
file transfer wrong **password**, the user might write them down (per- f . ...

System for authenticating access to online content referenced in hardcopy ...
US Pat. 6802000 - Filed Oct 28, 1999 - Xerox Corporation
60 A variant of a **one-time** pad is a **one-time password**. Unlike **one-time** pads which
change the entire **password** after each valid authentication, **one-time** ...

Controlling access to stored information based on geographical location and ...
US Pat. 6370629 - Filed Oct 29, 1998 - Datum, Inc.
30 2) from the producer (step 400), and enters the **password** 130 via the keyboard
50 (step 410). The **password** 130 is assumed to be a **one-time password**, ...

Validating connections to a network system
US Pat. 6470453 - Filed Sep 17, 1998 - Cisco Technology, Inc.
In addition, if the user is using a Token card with a **"one-time" password**, the
user must again use the Token card to provide another valid **one-time password** ...

Security server token caching
US Pat. 6715082 - Filed Aug 24, 1999 - Cisco Technology, Inc.
One feature of this aspect is that the identification infor- 35 mation includes
a username and a **one-time password** (OTP); and the step of determining ...

Method and arrangement for reliably identifying a user in a computer system
US Pat. 6928558 - Filed Oct 27, 2000 - Nokia Mobile Phones Ltd.
US BI The method of the invention comprises generating a first **one-time password**
in the mobile station without any action by the user by utilizing a known ...

Secure **password** provision
US Pat. 6662300 - Filed Jun 29, 1999 - International Business Machines Corporation
The invention differs from systems like OPIE and S/KEY, because the **password**
generated according to the invention 20 is not necessarily a **one-time password**. ...

Apparatus for securing access to a communications recorder
US Pat. 4851937 - Filed Sep 17, 1987 - Dictaphone Corporation
At line 52 the service person may enter the new machine number through keypad 32
once the **one-time password** has been entered and recognized by a logger 10. ...

Bilateral authentication and information encryption token system and method
US Pat. 5995624 - Filed Mar 10, 1997 - The Pacid Group
If the encrypted has its own **one-time password** and knows the **one-time password**
is not received within a predetermined time **password** for the computer system ...

Login permission with improved security

US Pat. 6490687 - Filed Mar 12, 1999 - NEC Corporation

Then, the processor calculates a Hash value H from the **one-time password** using

... Since neither a **one-time password** not a pager ID for use in encryption is ...

Patents

Patents **1 - 20** on **one time username password**. (0.08 seconds)

Sort by relevance | Sort by date (new first) | Sort by date (old first)

One-time logon means and methods for distributed computing systems
US Pat. 5241594 - Filed Jun 2, 1992 - Hughes Aircraft Company
MLP MLP 46 - MLP USER TELNET REQUEST SEND SERVICE AUTHORIZATION 49– MLP 50, USER
REQUEST GET **USERNAME/ PASSWORD** SEND MLP CONNECT REQUEST SEND SERVICE ...

Security server token caching
US Pat. 6715082 - Filed Aug 24, 1999 - Cisco Technology, Inc.
One feature of this aspect is that the identification infor- 35 mation includes
a **username** and a **one-time password** (OTP); and the step of determining ...

Remote computer communication
US Pat. 6081508 - Filed Feb 25, 1998 - Indus River Networks, Inc.
The user provides his credentials (**username** and **password**) to UI 512 (step 2) ...
For example, a user may use a **one-time**-use **password** approach in which the ...

Remote computer communication
US Pat. 6538996 - Filed Apr 25, 2000 - Enterasys Networks, Inc.
The user provides his credentials (**username** and **password**) to UI 512 (step 2) ...
For example, a user may use a **one-time**-use **password** approach in which the ...

Security and access management system for web-enabled and non-web-enabled ...
US Pat. 6460141 - Filed Oct 28, 1998 - RSA Security Inc.
For example, consider that user Steve may have **one username/password** for Web ...
Date and **time** the activity was logged **Username** address of the user Activity ...

Control for an industrial process using **one** or more multidimensional variables
US Pat. 6853920 - Filed Mar 9, 2001 - Smiths Detection-Pasadena, Inc.
If multiple alarms with the same date and **time** have occurred, ... In order to
Login, users shall enter a **Username** and a **Password** in order to gain access to ...

System for storing display data during first **time** period prior to failure of ...
US Pat. 5852720 - Filed Aug 16, 1996 - Compaq Computer Corp.
The ADDRESS and CONTROL character are optional, but if **one** is present both 60 65
... If the **username** and **password** are verified in the list of user profiles, ...

INTERNET-BASED METHOD OF AND SYSTEM FOR MONITORING SPACE-**TIME** COORDINATE ...
US Pat. 6677858 - Filed May 30, 2000 - Reveo, Inc.
This ID code uniquely identifies the bidder for all **time**, unlike a **username**,
password, e-mail address or other information that may be changed in the future ...

Network monitoring system for tracking, billing and recovering licenses

US Pat. 5717604 - Filed May 25, 1995
The **username/password** mixed billing systems which have a fixed number of ... .
of at least **one** real-**time** billing procedure tracks the amount of **time** the ...

Methods and systems for secure transmission of information using a mobile device
US Pat. 6880079 - Filed Apr 25, 2002 - Vasco Data Security, Inc.
In both cases the security of the **username-password** method is ... The dynamic
value (or **one-time password**) can then be used to prove to a server that **one** is ...

Internet-based system for enabling a **time**-constrained competition among a ...
US Pat. 6659861 - Filed May 26, 2000 - Reveo, Inc.
and will most likely be changed by the contestant after logging into the system
the first **time** The **username** and **password** are stored in the contestant ...

Multi-user application program testing tool
US Pat. 6002871 - Filed Oct 27, 1997 - Unisys Corporation
A user list file is an ascii text file, each line of which contains **one**
username/password combination. User list files have a header starting with the 45 ...

Monitoring system for an industrial process using **one** or more ...
US Pat. 6985779 - Filed Jun 13, 2002 - Smiths Detection, Inc.
When an administrator adds a alarm, the alarm date, **time**, severity, ... Users should
indicate which alarms a **Username** and a **Password** in order to gain access ...

Secure and dynamic biometrics-based token generation for access control and ...
US Pat. 6636973 - Filed Sep 8, 1998 - Hewlett-Packard Development Company, L.P.
Background of the Invention 10 15 Computer networks usually comprise **one** or more
... The **username** and **password** are then transmitted to the file server where ...

Language-driven interface for an automated testing framework
US Pat. 6907546 - Filed Mar 27, 2000 - Accenture LLP
The combination of the **one-time password** and the PIN, along with the user's public
username, provides two factor authentication of the user. ...

Single sign-on for a network system that includes multiple separately ...
US Pat. 6629246 - Filed Apr 28, 1999 - Sun Microsystems, Inc.
2 are repeated every **time** a user attempts to access a restricted web site. ...
When the 65 user enters a master **username/password** combination into the ...

Secure **password** provision
US Pat. 6662300 - Filed Jun 29, 1999 - International Business Machines Corporation
A different challenge is issued each **time** the client accesses the server, so that
even if **one password** is detected , by a third party, it is of no use in ...

System and method for providing controlled and secured access to network ...
US Pat. 6718328 - Filed Feb 28, 2000 - Akamai Technologies, Inc.
In step 412, the system verifies if the **username/password** pair is valid. ...
of the user (3) **Time** Window 50 60 The server independently obtains the URL, ...

Apparatus and methods for baggage reconciliation and location
US Pat. 5225990 - Filed Mar 26, 1991 - Brals Limited
One of these procedures, selected according to the current strategy, ...

terminal in response to a sequence of prompts:- **Username**, **Password**, Flight Number, ...

System and method for measuring and reporting user reactions to particular ...
US Pat. 6606581 - Filed Jun 14, 2000 - OpinionLab, Inc.
Tool 30 may also collect the **time** and 10 date at which user 16 provided the reaction
... hostname, **username**, **password**, network connection, operating system, ...

Patents **1 - 20** on **database username password reset**. (0.22 seconds)

Sort by relevance | Sort by date (new first) | Sort by date (old first)

Internet-enabled central irrigation control
US Pat. 6823239 - Filed Nov 4, 2002 - Rain Master Irrigation Systems, Inc.
5 is a **database** diagram of an irrigation control system **database** in accordance
... A **username** and **password** record 502 has fields used to identify a user. ...

Security and **password** mechanisms in a **database** system
US Pat. 6145086 - Filed Apr 26, 1999 - Oracle Corporation
7, 2000 Sheet 4 of 5 401 j Get client **password** and **username** 405 Execute ...
Is **password** the same as any used with a time period? **Reset** expired status. ...

Security and **password** mechanisms in a **database** system
US Pat. 5944825 - Filed May 30, 1997 - Oracle Corporation
31,1999 Sheet of 5 Get client **password** and **username** Execute verification ...
Is **password** the same as any used with a time period? **Reset** expired status. ...

Web-based system and method for managing legal information
US Pat. 6839707 - Filed Jan 17, 2001 - General Electric Company
If the user's **password** should be changed back to match the user's **username** (in
the case of a user who has forgotten his **password**), select the "**Reset**" ...

Blended learning educational system and method
US Pat. 6370355 - Filed May 4, 2000 - Epic Learning, Inc.
As shown by block 204, when an end-user submits a **username** and **password**, ...
finalization of the sign-up form, the end-user may **reset** or submit the form. ...

Computer architecture for managing courseware in a shared use operating ...
US Pat. 6170014 - Filed Mar 18, 1999 - Community Learning and Information Network
The registration manager 300 verifies that the **username** and **password** are unique
by checking the **database** 302, and then adds a new user registration record ...

Control for an industrial process using one or more multidimensional variables
US Pat. 6853920 - Filed Mar 9, 2001 - Smiths Detection-Pasadena, Inc.
Administrators shall be able to **reset** a **password** for a **Username** to any initial
password. The user is required to change the initial **password** during the ...

Educational homeroom for providing user specific educational tools and ...
US Pat. 6368110 - Filed May 4, 2000 - Epic Learning
As shown by block 204, when an end-user submits a **username** and **password**, ...
finalization of the sign-up form, the end-user may **reset** or submit the form. ...

Systems, methods and computer program products for automatically monitoring ...
US Pat. 6173284 - Filed May 19, 1998 - University of Charlotte City of Charlotte

Once the officer has provided the proper **username** and **password**, ... The user may submit or **reset** the form 64 by selecting one of 8 buttons 80,82, ...

Methods and apparatus for system and device design and control
US Pat. 6965855 - Filed May 17, 2000 - General Electric Company
System 10 also includes a **database** 20 for storing information relating to ...
Selection of **Reset** button 68 clears **username** block 62 and **password** block 64 so ...

Computer architecture for managing courseware in a shared use operating ...
US Pat. 6282573 - Filed Apr 19, 2000 - Community Learning and Information Network
The registration manager 300 verifies that the **username** and **password** are unique
by checking the **database** 302, and then adds a new user registration record ...

Networked computer security system
US Pat. 6125457 - Filed Dec 29, 1997 - Compaq Computer Corporation
It is important to note that any event which triggers a hardware **reset** will ...
For example, since the user has already provided **username** and **password** ...

Distributing queries and combining query responses in a fault and ...
US Pat. 6985944 - Filed Nov 1, 2002 - Fidelia Technology, Inc.
Required inputs may include legitimate **username, password, database** driver ...

Patents **1 - 8** on **database user name password hash reset** (0.29 seconds)

Sort by relevance | Sort by date (new first) | Sort by date (old first)

Did you mean: ***database username password hash reset***

Cryptographic infrastructure for encrypting a **database**
US Pat. 7266699 - Filed Aug 29, 2002 - Application Security, Inc.
An encryption system for encrypting data residing in a **database**, ... a **hash** of
said **user name** concatenated with said **user password**; a **hash** of said **user** ...

Reduction of network server loading
US Pat. 6850968 - Filed Mar 23, 2000 - Service Co.
In forming the tables in this implementation, the **user- name** information is ...
one of plural **hash** algorithms that are well known in the **database** art. ...

Relational **database** management encryption system
US Pat. 7269729 - Filed Dec 28, 2001 - International Business Machines Corporation
In a **database** system, a **database** administrator can **reset** a **user's password** upon the
... Possible values: yes, no, or never, passwd: **Hash** value of **password**. ...

Machine dependent login for on-line value-bearing item system
US Pat. 7251632 - Filed Oct 18, 2000 - Stamps. com
The **Reset Password** is typically e-mailed to the e-mail address the **user** has on
file in the **database**. After the CSR or the **user** has entered the **user** ...

Method and apparatus for digitally signing an advertisement area next to a ...
US Pat. 7240037 - Filed Oct 18, 2000 - Stamps.com
The passphrase is not stored on the **user's** computer. The **hash** of the passphrase is
... This screen lets the **user** enter his/her **user name** and **password**. ...

System and method for **user** authentication interface
US Pat. 7188314 - Filed Jan 29, 2003 - Authernative, Inc.
Password File Theft Every **user name** has a **password** entry in a hashed form ...
is used: each **password** is an encryption key for itself to be **hash** encrypted. ...

Data communications
US Pat. 7233997 - Filed Jun 26, 1998 - British Telecommunications plc
The SPS decrypts the **hash** and stores it in the SPS 25 **database** 8. .... Since the
user's password is only ever sent across the Internet when a **password** ...

Method and system for identifying a form version
US Pat. 7082444 - Filed Sep 30, 2002 - Pitney Bowes Inc.
The digital pointing device checks to determine if a form **database** update ....
In an alternative, the **password** may include biometric data read from a **user**. ...

... B2 11 **reset** the symmetrical keys used to encrypt the data. ... concatenated with
the **password**, the second **hash** being stored in the **database**. 2. ...

Relational **database** management encryption system
US Pat. 7269729 - Filed Dec 28, 2001 - International Business Machines Corporation
In a **database** system, a **database** administrator can **reset** a user's **password** upon the
... Possible values: yes, no, or never, passwd: **Hash** value of **password**. ...

Auditing method and system for an on-line value-bearing item printing system
US Pat. 6868406 - Filed Oct 16, 2000 - Stamps.Com
Password Reset state. This is a temporary state to allow a lost **password** to be
... Next, the client software sends a **Hash** Message Authentication Code (HMAC) ...

Cryptographic co-processor
US Pat. 6704871 - Filed Sep 16, 1998 - SafeNet, Inc.
An HMAC key type may be used to store the secret output of a **hash** result—perhaps
... secret key by hashing an application-supplied **Password** or Passphrase. ...

Reduction of network server loading
US Pat. 6850968 - Filed Mar 23, 2000 - Service Co.
Each **hash** entry in the table is a fixed length value, eg, a five **hash**, created
according one of plural **hash** algorithms that are well known in the **database** ...

Data communications
US Pat. 7233997 - Filed Jun 26, 1998 - British Telecommunications plc
The SPS decrypts the **hash** and stores it in the SPS 25 **database** 8. Notably, the
new **password** is sent in hashed form and encrypted, to avoid the **password** ...

Cryptographic module for secure processing of value-bearing items
US Pat. 7216110 - Filed Oct 16, 2000 - Stamps.com
For access control, the system is capable of granting/revoking PSD privileges (eg,
create indicia, **reset password**, retrieve status, ...

Machine dependent login for on-line value-bearing item system
US Pat. 7251632 - Filed Oct 18, 2000 - Stamps. com
The **Reset Password** is typically e-mailed to the e-mail address the user has on
file in the **database**. After the CSR or the user has entered the user ...

System and method for user authentication interface
US Pat. 7188314 - Filed Jan 29, 2003 - Authernative, Inc.

Defense—automatic session lock out after several failed attempts; possible account
revoke or a forced **password reset** 2. Log-In Session Videotaping Widely ...

Method and apparatus for digitally signing an advertisement area next to a ...
US Pat. 7240037 - Filed Oct 18, 2000 - Stamps.com
The **hash** of the passphrase is transmitted securely to the PSD and stored ....
They will get a temporary '**Reset Password**' that is only good for one login. ...

Role assignments in a cryptographic module for secure processing of value ...
US Pat. 7236956 - Filed Oct 16, 2000 - Stamps.com
The PSD package remains in the **database** challenge message to ... shared ^ .
client software sends a **Hash** Message Authentication Code tion process compares a ...

Method and system for identifying a form version
US Pat. 7082444 - Filed Sep 30, 2002 - Pitney Bowes Inc.
The digital pointing device checks to determine if a form **database** update is
.... authentication and repudiation systems such as a secure **hash** including mAA ...

with **database** 42 that may include, without limitation: a **username**; a **password**; ...

APPARATUS AND ACCOMPANYING METHODS FOR PROVIDING, THROUGH A

CENTRALIZED ...
US Pat. 6920502 - Filed Jul 17, 2001 - Netilla Networks, Inc.
Once appropriate **username** and **password** processes this input and provides an ....
control data). tively synchronous dynamic random **access** memory FIG. ...

Identifying an unidentified person using an ambiguity-resolution criterion
US Pat. 6526126 - Filed Mar 2, 2001 - Distributed Software Development, Inc.
Database 42 may be more or less permanent or may be a **temporary database**, ...
with **database** 42 that may include, without limitation: a **username**; a **password**; ...

System and method for pre-paid and pay-per-use internet services
US Pat. 6748067 - Filed Dec 11, 2001 - BellSouth Intellectual Property Corporation
10 SCP 13 responds to queries from the SSPs using **database** 13a and .... it waits
for a valid **username** and **password** from caller 40 before allowing **access** to ...

Method for restricting **access** to a web site by remote users
US Pat. 7249262 - Filed May 6, 2002 - Browserkey, Inc.
However, by making use of the present invention in the FTP environment, the user
can avoid the need to use a **username** and **password** to log into the FTP ...

RF tag based system and method for drive-through applications
US Pat. 6366220 - Filed Nov 8, 2000 - BBNT Solutions LLC
When the customer desires to establish a new account, the system determines if
the selected **username** and **password** are available; and if they are, ...

Dynamic link
US Pat. 6856989 - Filed Apr 7, 2000 - ArcSoft, Inc.
Database server 16 implements file index agent 5, **database** 174, and file **control**
... servlet 112 authenticates a user by comparing the **username** and **password** ...

Screen maker
US Pat. 7124357 - Filed May 31, 2000
This could be a simple **password** check, an 12 encrypted **password** check, ...
a random **access** memory for **temporary** storage of information and a read only ...

Methods and apparatus for permitting transactions across firewalls
US Pat. 6654892 - Filed Jun 8, 1999 - Sun Microsystems, Inc.
In addition, the **password** is entered at block 922, where the **password** indicates
that the acknowledgement e-mail has been handled by the source code **control** ...

Apparatus and accompanying methods for providing, through a centralized ...
US Pat. 6981041 - Filed Apr 13, 2001 - AEP Networks, Inc.
In addition, for application support, an seeking **access**). Once appropriate **username**
and **password** efficient protocol such as AIP (or the like) is used to ...

Method and system for implementing shared schemas for users in a distributed ...
US Pat. 7171411 - Filed Feb 27, 2002 - Oracle International Corporation
When any of these users connect to a **database**, he/she is automatically ...
username, the users can be individually audited for their **access** history despite ...

System and process for allowing wireless messaging
US Pat. 6134432 - Filed Jun 17, 1998 - Bulletin.net, Inc.

Each individual message is validated against the MSISDN **database** for authority
to send, ... consists of a **username**, 60 which is the MSISDN, and a **password**. ...

Patents **1 - 20** on **database (onetime OR temporary) username password. (0.47** seconds)

Sort by relevance | <u>Sort by date (new first)</u> | <u>Sort by date (old first)</u>

Method and system for removing content entity object in a hierarchically ...
US Pat. 6611840 - Filed Jan 21, 2000 - International Business Machines Corporation
8C with the userid and a **temporary password**. ... This action causes a query to
be issued to the account **database** to determine if the **username** and **password** ...

INTERNET-BASED METHOD OF AND SYSTEM FOR MONITORING SPACE-TIME COORDINATE ...
US Pat. 6677858 - Filed May 30, 2000 - Reveo, Inc.
4A, the web server 110 20 creates a record in the contestant **database** 130 ...
4A, an e-mail message containing the **username** and **temporary password** are sent ...

Internet-based system for enabling a time-constrained competition among a ...
US Pat. 6659861 - Filed May 26, 2000 - Reveo, Inc.
4A, the web server 110 creates a record in the contestant **database** 130 for ...
assigned a **username** and a **temporary password** for use when As indicated at ...

Document conversion and network **database** system
US Pat. 6374274 - Filed Sep 16, 1998 - Health Informatics International, Inc.
5, the **username** and **password** information is not immediately available to the ...
as **temporary** authorization pending granting of the 20 patient's **username** ...

Limited access network **database** system
US Pat. 6839881 - Filed Aug 30, 2001
5, the **username** and **password** information is not immediately available to the ...
as **temporary** authorization pending granting of the 15 patient's **username** ...

Authentication and entitlement for users of web based data management programs
US Pat. 6587836 - Filed Sep 24, 1998 - WorldCom, Inc.
The customer receives this package and uses the **temporary password** to logon to
... user message" for authenticating the customer's **username/password** pair, ...

Global synchronization unit (GSU) for time and space (TS) stamping of input ...
US Pat. 6903681 - Filed May 25, 2000 - Reveo, Inc.
4A, the web server 110 creates a record in the contestant **database** 130 for this
... 4A, an e-mail message containing the **username** and **temporary password** are ...

System, method and article of manufacture for a mobile communication network ...
US Pat. 6199099 - Filed Mar 5, 1999 - AC Properties B.V.
The Content **Database** 1040 stores all of the information related to the intention
.... This table contains a **username** and a **password** 1320 as well as a unique ...

System and method for bandwidth on demand for internet service providers

US Pat. 6618370 - Filed Nov 16, 1999 - BellSouth Intellectual Property Corporation
Proxy RADIUS server 217 has a **database** (not shown) listing the 40 telephone ...
Proxy RADIUS server 217 forwards the **username** and **password** information on to ...

Method and apparatus for authorizing remote internet access
US Pat. 5898780 - Filed Oct 9, 1996 - GRIC Communications, Inc.
If the user 144 did not have a correct **username** or **password**, ... server collects
accounting data and can send the accounting data to a **database** in real time ...

Methods and apparatus for network-enabled virtual printing
US Pat. 6598087 - Filed Sep 8, 1999 - GE Capital Commercial Finance, Inc.
... a **username** and **password**, based on the custom properties associated with the
virtual printer. The printed information is then routed to a **temporary** file. ...

Method and system for interrupting page delivery operations in a web environment
US Pat. 6317790 - Filed Nov 5, 1998 - Oracle Corporation
The third line, "RewriteRule" **password** to a **temporary** file and passes the name of
... only if the right **username** and **password** against an Oracle **database** and ...

File structure for storing content objects in a data repository
US Pat. 7007034 - Filed Jan 21, 2000 - International Business Machines Corporation
8C with the userid and a **temporary password**. ... This action causes a query to
be issued to the account **database** to determine if the **username** and **password** ...

Hitmask for querying hierarchically related content entities
US Pat. 6839701 - Filed Jan 21, 2000 - International Business Machines
8C with the userid and a **temporary password** ... This action causes a query to be
issued to the account **database** to determine if the **username** and **password** ...

Temporary expanding integrated monitoring network
US Pat. 7031778 - Filed Aug 7, 2002 - Smiths Detection Inc.
Alarms generated with their **Username**. To change a **password**, a user must first by any
... Administrators shall be able to **database** or spreadsheet programs. ...

Providing an integrated service assurance environment for a network
US Pat. 6571285 - Filed Dec 23, 1999 - Accenture LLP
The .**password** file is located # responsible for getting email messages. ...
inform all **database** users of the # Command syntax: getpass **USERNAME** # downtime. ...

System and method for identifying an unidentified person using an ambiguity ...
US Pat. 6205204 - Filed Dec 17, 1997 - Distributed Software Development, Inc.
Database 42 may be more or less permanent or may be a **temporary database**, ...
with **database** 42 that may include, without limitation: a **username**; a **password**; ...

System, method and article of manufacture for a tuned user application ...
US Pat. 6195651 - Filed Nov 19, 1998 - Andersen Consulting Properties BV
The query to the **database** utilizes the user content preferences stored as part of
... This table contains a **username** and a **password** 1320 as well as a unique ...

System, method and article of manufacture for creating a filtered ...
US Pat. 6202062 - Filed Feb 26, 1999 - AC Properties B.V.
profile **database** 1003 to filter the content that is returned. ... This table

contains a **username** and a **password** 1320 as well as a unique identifier. ...

Access management system and method employing secure credentials
US Pat. 6668322 - Filed Aug 5, 1999 - Sun Microsystems, Inc.
Some credential types (eg, **username/password** pairs, 60 **onetime** passwords, ...
to an authentication **database** may be performed for more detailed requirements. ...

Patents

Patents **1 - 20** on **data recovery temporary access**. (**0.23** seconds)

Sort by relevance | Sort by date (new first) | Sort by date (old first)

System for exclusively controlling **access** of a semiconductor memory module ...
US Pat. 5694619 - Filed Jun 16, 1994 - Fujitsu Limited
The resource manager 32 then is read out of the semiconductor memory module, and
removes the **temporary** prohibition against **access** to the **data** processing is ...

External I/O controller system for an independent **access** parity disk array
US Pat. 6012123 - Filed Jun 10, 1997
35 At step 340, **temporary** host **data** D0+n is generated by an Exclusive-OR ...
The new parity **data** Pn may also be used for **data** 50 **recovery** purposes in a ...

System for alotting logical path number to logical interfaces and permitting ...
US Pat. 5925111 - Filed May 8, 1997 - Fujitsu, Limited
23 24 compressed **data** in the internal bus interface controller 31/ of the end
... removes the **temporary** prohibition uje 33 against **access** to the **data** from a ...

Virtual machine **data** processor
US Pat. 4524415 - Filed Dec 7, 1982 - Motorola, Inc.
A virtual machine **data** processor comprising: external **access** means for ...
access fault **recovery** means coupled to said external **access** means and to said ...

Recovery from failure of a **data** processor in a network server
US Pat. 6275953 - Filed Sep 26, 1997 - EMC Corporation
A buffer cache 62 composed of part of the random-**access** memory of the **data** movers
21 is used as a buffer for this **data** transfer. ...

Remote copy secondary **data** copy validation-audit function
US Pat. 5592618 - Filed Oct 3, 1994 - International Business Machines Corporation
The electronic memory provides the fastest 2S **access** to **data** since **access** is entirely
... then the copy is validated and the **temporary data** is removed. ...

Card-type storage medium
US Pat. 6415350 - Filed Mar 9, 1998 - Fujitsu Limited
The non-volatile memory manager 34 executes the **data access** to the ... read out
data by the **recovery** program 31, reads out **data** D from the **temporary** storage ...

Error-**recovery** mechanism using a **temporary** forwarder in a wireless-ATM network
US Pat. 6339585 - Filed May 5, 1998 - Philips Electronics North America Corp.
The signaling messages are used to perform the MAC level function of ensuring
access to a channel. Essentially, any signaling or **data** packets are viewed as ...

Device and method for **data recovery** in a file system
US Pat. 5974426 - Filed Aug 13, 1997 - SamSung Electronics Co., Ltd.

7 is a flow diagram illustrating a **data recovery** method for a file system ...
a dynamic random **access** memory (DRAM) 114, and a Static Random **Access** Memory ...

Distributed **data** base system of composite subsystem type, and method fault ...
US Pat. 5065311 - Filed Apr 20, 1988 - Hitachi, Ltd.
treated as faulty and subsystem **recovery** is carried out. **temporary** wait, ...
have been using the (1) When the distributed **data** base **access** section as a BE, ...

Enhanced reliability **data** storage system with second memory for preserving ...
US Pat. 4525800 - Filed Jun 1, 1981 - General Electric Co.
Data in **temporary** storage, eg in a scratch pad random **access** memory, ... However,
when the system switches to a **data recovery** mode upon the onset of the ...

Method and apparatus for error **recovery** in a storage device
US Pat. 6530034 - Filed Nov 5, 1999 - International Business Machines Corporation
Execu- become a substitute, and records **data** in this spare sector in tion starts
from ... The difference is that confirmative operation of the **temporary** ...

Data processing system for dynamically switching **access** control process and ...
US Pat. 5553303 - Filed Dec 20, 1994 - Fujitsu Limited
5 The CSS **access** control information 111 and the **data** involved are shared. ...
blocks the crashing processor module (a **temporary** action until a ...

Direct memory **access data** transfer system for use with plural processors
US Pat. 4481578 - Filed May 21, 1982 - Pitney Bowes Inc.
The buffer 426 is connected over a read **data** 65 line to a **data recovery** circuit 428,
... The DMA controller 432 is also connected to a **temporary** memory **data** ...

Control of **access** to a networked system
US Pat. 5774650 - Filed Sep 1, 1994 - International Business Machines Corporation
Loss of this file prevents ANY further logon to the system; **recovery** entails ...
The **temporary access** control facilitation means, such as an **access** control ...

Data storage controller providing multiple hosts with **access** to multiple ...
US Pat. 6073209 - Filed Mar 31, 1997 - Ark Research Corporation
This procedure may be desirable for purposes of writing **temporary data**, such as **data**
... then in step 1612 a line error **recovery** routine is called. ...

System and method for handling **temporary** errors on a redundant array of ...
US Pat. 6532548 - Filed Sep 21, 1999 - Storage Technology Corporation
Data can be continuously communicated to and from the storage element array while
a storage element is in error **recovery** because the unresponsive storage ...

Generic high bandwidth adapter having **data** packet memory configured in three ...
US Pat. 5367643 - Filed Feb 6, 1991 - International Business Machines Corporation
If the **access** is a read operation, no **data** parity will be generated. ... and start
the error **recovery** procedure (if required by the implementation). ...

Power outage **recovery** method and apparatus for demand recorder with solid ...
US Pat. 4335447 - Filed Feb 5, 1980 - Sangamo Weston, Inc.
(Chart IV) describes the operation of the system during Power Fail **Recovery** Mode
II for storing **data** in Random **Access** Memory during a power 25 outage. FIGS. ...

[System and method for maintaining file **data access** in case of dynamic ...](#)
US Pat. 5564011 - Filed Apr 20, 1995 - International Business Machines Corporation
Step 258 may follow step 256 if some **recovery** steps are deemed expedient by the
... the YES branch from step 270, step 272 is executed to build a **temporary** ...

Sort by relevance | Sort by date (new first) | Sort by date (old first)

Did you mean: *(one-time OR FTP) username password*

One-time logon means and methods for distributed computing systems

US Pat. 5241594 - Filed Jun 2, 1992 - Hughes Aircraft Company
MLP MLP 46 - MLP USER TELNET REQUEST SEND SERVICE AUTHORIZATION 49— MLP 50, USER
REQUEST GET **USERNAME/ PASSWORD** SEND MLP CONNECT REQUEST SEND SERVICE ...

Security server token caching

US Pat. 6715082 - Filed Aug 24, 1999 - Cisco Technology, Inc.
... is enhanced because the **one-time password** from the token card is initially
required. ... that contains a **username** and a second **one-time password (OTP)**; ...

Remote computer communication

US Pat. 6081508 - Filed Feb 25, 1998 - Indus River Networks, Inc.
The user provides his credentials (**username** and **password**) to UI 512 (step 2) ...
For example, a user may use a **one-time**-use **password** approach in which the ...

Smart card system and methods for proving dates in digital files

US Pat. 6792536 - Filed Oct 20, 1999 - TimeCertain LLC
The user's **username, password**, and domain are stored on the smart card. ...
Then a **one time**, random "session key" is generated and the entire message is ...

Remote computer communication

US Pat. 6538996 - Filed Apr 25, 2000 - Enterasys Networks, Inc.
The user provides his credentials (**username** and **password**) to UI 512 (step 2) ...
For example, a user may use a **one-time**-use **password** approach in which the ...

Methods and systems for secure transmission of information using a mobile device

US Pat. 6880079 - Filed Apr 25, 2002 - Vasco Data Security, Inc.
In both cases the security of the **username-password** method is ... The dynamic
value (or **one-time password**) can then be used to prove to a server that one is ...

Single sign-on framework with trust-level mapping to authentication requirements

US Pat. 6892307 - Filed Aug 5, 1999 - Sun Microsystems, Inc.
... credential types include at least two of 35 passwords, certificates,
username/password pairs, **one time** passwords, biometric indicia, and smart cards. ...

Language-driven interface for an automated testing framework

US Pat. 6907546 - Filed Mar 27, 2000 - Accenture LLP
The combination of the **one-time password** and the PIN, along with the user's public
username, provides two factor authentication of the user. ...
